College of New Energy Materials

New Energy Science and Engineering

Undergraduate Programs

What you will learn in this program?

This program will give students a solid foundation of new energy science and engineering, with strong practical ability, knowledge acquisition ability, organizational management ability. Graduates should be able to that combine professional basic theory and basic knowledge with scientific research and production practice.

Courses you'll take

- Hydrogen Storage Technology and Materials
- Energy Storage and Energy Internet
- Fuel Cell Technology
- Industrial Microorganism
- Solar Energy Utilization Technology
- Solid Waste Disposal
- Synthetic Fuel Engineering
- Nanotechnology
- Lithium-Ion Battery Technology
- Gas Hydrate

Teaching languages:
Chinese

Tuition:
25000 RMB/year

Course start date:
September

Course duration:
Four Years
